PROFESSIONAL EXPERIENCE

Artane Partners

Investment Banking Analyst

Dublin, Ireland

Jun 2026 – Present

- Supporting a talented investment banking team on cross-border advisory, valuation, and capital-raising transactions.
- Assisting in bridging capital flow by connecting Western markets and capital to investment opportunities across the GCC (Gulf Cooperation Council) region.
- Conducting quantitative financial analysis, valuation modeling (DCF, multiples), and industry research to support deal execution.

Dimitra International

Business Analyst

Berlin, Germany

Sep 2025 – Jan 2026

- Analyzed operational and financial datasets using SQL and Excel, improving reporting accuracy.
- Developed interactive dashboards for KPI tracking and performance monitoring, enhancing executive visibility.
- Automated manual data workflows, reducing reporting turnarounds and increasing process efficiency by 15%.
- Collaborated with cross-functional teams to support data-driven strategic decisions and operational optimization.

Mohamedally Akbarally & Co.

Operations & Business Analyst

Mumbai, India

2020 – 2022

- Increased customer retention by 15% through improved client management and data-driven communication strategies.
- Reduced inventory shortages by 10% by implementing demand forecasting models based on historical sales data.
- Improved operational efficiency by 20% through workflow process mapping and database optimization.

PROFESSIONAL EXPERIENCE (CONTINUED)

Motilal Oswal Financial Services Ltd.
Equity Dealer

Mumbai, India
2020

- Supported equity trade execution and monitored portfolio positions for high-net-worth clients (\$2M+ assets).
- Conducted thorough market research and financial analysis on upcoming IPOs and capital markets.
- Executed and monitored trades in derivatives (futures & options) across indices, stocks, and currency pairs, applying risk management and market analysis techniques.

KEY PROJECTS

Household Financial Market Participation Analysis

R, Stata

- Built Probit and Logit regression models to analyze stock market participation patterns across 9,600+ households.
- Estimated marginal effects of income, age, and education levels on household financial inclusion.
- Applied advanced econometric techniques on the Bank of Italy SHIW dataset to derive policy-relevant insights.

SME Growth & Credit Market Analysis

Python, World Bank Data

- Conducted multivariate regression analysis on SME growth indicators using World Bank macroeconomic data.
- Evaluated the statistical impact of credit availability, inflation, and GDP growth on business expansion.
- Applied panel data and econometric forecasting models (ARIMA) to predict future market trajectories.

Financial Forecasting Model

R, Time-Series

- Developed time-series forecasting models (ARMA/ARIMA) to project firm revenue and earnings trends.
- Improved prediction accuracy by 12% compared to baseline models through optimal parameter tuning.

Stock Valuation & Comparable Analysis

Excel, Financial Modeling

- Built comprehensive equity valuation models using Discounted Cash Flow (DCF), EV/EBITDA, and P/E multiples.
- Conducted sensitivity and scenario analysis to estimate stock price targets and assess intrinsic investment value.

Customer & Sales Analytics Dashboard

Python, Power BI

- Cleaned, processed, and merged large-scale customer transaction datasets using Pandas and NumPy.
- Designed and developed interactive Power BI dashboards to track key sales metrics, customer acquisition trends, and KPIs.

TECHNICAL SKILLS

Financial Analysis:	DCF, Comparable Valuation, Capital Markets, Financial Modeling, Investment Banking
Data Analytics:	Python (Pandas, NumPy), R, SQL, Excel, Power BI, Tableau
Quantitative Methods:	Econometrics, Regression, Time-Series Analysis, Forecasting, Machine Learning
Business Skills:	Market Research, Strategic Analysis, KPI Tracking, Process Optimization
